EXPERIENCE

UX/UI Design Intern

October 2020 - Present

Daily Bruin

- Create article layout and design for UCLA student newspaper
- Helped redesign "The Stack" website, a subsidiary of the Daily Bruin focused on data
- Use Figma and Adobe InDesign to create wireframes and animations for web-based articles

Business and Design Intern (Summer Role)

June 2020 - October 2020

Chalkboard Inc. San Francisco, CA

- Worked directly with the Chief Product Officer deciding product requirements and creating wireframes on Figma for sports betting messaging app
- Presented 7 times to CEO about topics within the sports betting industry, including operator affiliate programs, user research, and competitor reports of other apps within the online sports betting market
- Promoted the app on launch-day reaching number 31 on the App Store within the "sports" category
- Tested and iterated new products including chat feature and live scores page through user testing and feedback

Summer Business Analyst (Summer Role)

June 2019 - August 2019

Tidepool Labs Inc., San Francisco, CA.

- Assessed product potential of startups for small tech-based incubator whose portfolio includes projects for the US Military as well as NFL and Division I college football teams
- Worked directly with CEOs of incubated companies to create product go-to-market strategies

CODING PROJECTS (Apps Best Run on Chrome)

Space Escape | GitHub Repo: <https://bit.ly/sescapegh> | **Live Link:** <https://bit.ly/spceescp>
